The area of study known as the history of mathematics is primarily an investigation into the origin of discoveries in mathematics and, to a lesser extent, an investigation into the mathematical methods and notation of the past. Before the modern age and the worldwide spread of knowledge, written examples of new mathematical developments have come to light only in a few locales.

Intelligence To be intelligent you first have to know what being Intelligent is. And you also have to know what being ignorant is. Ignorant is just another word for "Not knowing". But not knowing is not always obvious or clearly understood. That's because learning is not fully understood. The more you learn the more you should realize what you didn't know.
