Eloquent JavaScript

Decision making under risk is presented in the context of decision analysis using different decision criteria for public and private decisions based on decision criteria, type, and quality of available information together with risk assessment.

Tools for Decision Analysis - ubalt.edu

DL is a class of machine learning algorithms that uses artificial neural networks (ANNs) with many layers of nonlinear processing units for learning data representations.

The rise of deep learning in drug discovery - ScienceDirect

(Third edition) by Stuart Russell and Peter Norvig. The leading textbook in Artificial Intelligence. Used in over 1300 universities in over 110 countries. The 22nd most cited. computer science publication on Citeseer (and 4th most cited publication of this century).

Artificial Intelligence: A Modern Approach

IEEE Computer Society. The IEEE Computer Society is the world's leading membership organization dedicated to computer science and technology. It serves over 60,000 members and is the computing professionals' single, unmatched source for technology information, inspiration and collaboration.

Skillsoft Online Learning Resources | eLearning Providers

There has been rapid growth in blended learning implementation and research focused on course-level issues such as improved learning outcomes, but very limited research focused on institutional policy and adoption issues.

A framework for institutional adoption and implementation

The incremental learning derives its name from the incremental nature of the learning process. In incremental learning, all facets of knowledge receive a regular treatment, and there is a regular inflow of new knowledge that builds upon the past knowledge.

SuperMemo: Incremental learning (SuperMemo 16)

The talk will look at different players in IT security: CISOs, security product vendors, computer manufacturers, cyber insurances - and examine their economic incentive structures, their interplay, and reasons for failure.

Black Hat Asia 2017 | Briefings

Processing is a flexible software sketchbook and a language for learning how to code within the context of the visual arts. Since 2001, Processing has promoted software literacy within the visual arts and visual literacy within technology.
