The foreskin in sex. Structure of the foreskin. It has been known since antiquity that the foreskin gives pleasure, and only forgotten in the US in the last century or so.. Central to Intactivist claims about foreskin function in sex is the work of Taylor et al., demonstrating that the foreskin itself is richly innervated with Meissner corpuscles, which are sensitive to light touch.

A Chartered professional is a person who has gained a specific level of skill or competence in a particular field of work, which has been recognised by the award of a formal credential by a relevant professional organization. Chartered status is considered a mark of professional competency, and is awarded mainly by chartered professional bodies and learned societies.

Chartered (professional) - Wikipedia

A profession is a occupation founded upon specialized educational training, the purpose of which is to supply disinterested objective counsel and service to others, for a direct and definite compensation, wholly apart from expectation of other business gain. The term is a truncation of the term "liberal profession", which is, in turn, an Anglicization of the French term "profession libÃ©rale".
