

resource based theory creating pdf

Attention economics is an approach to the management of information that treats human attention as a scarce commodity, and applies economic theory to solve various information management problems. Put simply by Matthew Crawford, "Attention is a resource" a person has only so much of it.". In this perspective Thomas H. Davenport and J. C. Beck define the concept of attention as:

Attention economy - Wikipedia

Educational technology is "the study and ethical practice of facilitating learning and improving performance by creating, using, and managing appropriate technological processes and resources".. Educational technology is the use of both physical hardware and educational theoretic. It encompasses several domains including learning theory, computer-based training, online learning, and where ...
